I'd say go ahead and draft your 10-12 question survey.

Can Linda go ahead and get a survey monkey account today and get it set up. Then once you have the questions finalized she can load them in. I understand it's a pretty simple process.

It would probably be a good idea to have paper backup surveys and pens that people can fill out in case something goes wrong with the electronic process.

I think that's a good idea. We'll have to figure how logistically how to get some ipads

temporarily and get survey monkey tool on them. Harold, can you pursue asap ?

I will work on some questions for the survey - building on the paper surveys we use already.

We re doing the \$5000 sponsorship for block party participation but I really don t want to pay for whistles as that just doesn t seem to hold a lot of value. I think maybe a valuable thing to do with folks

Here s an idea: Have a few ipads there with a survey monkey tool on it. Have them answer 10 or so questions that OSC might want to collect about how people feel about the safety of their neighborhood, what they think about police/MPD, do they know about neighborhood watch and would they be interested in participating, check off a list of safety tips that they do or don t use, then have them input their name and street address (maybe not exact address but block number like 1200 block of Vinton) and phone number where we can contact them with helpful safety tips and neighborhood watch opportunities in their neighborhood.
